LEAPED Into the River and Was Drowned.

Suicide Under Strange Cir- cumstances of a Woman Member of a

Comedy Company on Its Way From Madison to the City of Louisville.

Row on a Boat Followed by a Terrible Tragedy.

The man on the stage who does the trick of escaping from firmly tied ropes, submits to the bonds with a smile. He has been got out of the ropes that are being laid on him. But the man in the woods and let Indian captives bind him to a tree for torture and he would struggle to the last against the bonds.

When the stomach is diseased there are stomach diseases every hour about the organs die and every hour about the heart, lungs, liver, kidneys, etc. The folly of mankind is to passively submit to the fusing of these bonds with no effort to escape until the pain they cause are too great.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It cures disease of heart, liver, lungs, kidneys and other organs, when these diseases, as in the case, have their origin in the stomach.

"For a long time I was suffering and was hardly able to get about," writes Mr. Andrew J. Jennings, of Thomas, Tucker Co., W. Va. "But Dr. Pierce's Golden Medical Discovery, which my whole system was out of order, had no effect on me. I took the medicine and the first bottle restored my appetite. I look like a man again. I have a new lease of life and some of the 'Pleasant Pellets' and feel like a new person."

Dr. Pierce's Pleasant Pellets cleanse the clogged system from impurities.

a Weekly.

The New York World is a good paper, but the world goes to print some and it is full of stories. To bring this news, just as it is, is prompt and impartial—all that you have to do is to look in the columns of the Thrice-a-Week Edition of the New York World, which comes to the news-stands every day.

The Thrice-a-Week World illustrates as a political newspaper, and it is a good paper, but the English language is spoken—and you want it.

The New York World's regular subscription price is only \$1.00 per year. We offer this as a weekly newspaper and The Herald-American.

The regular subscription price of the two papers is \$3.00.

protective point American plants will be enlarged to do all the work necessary for this country. With the tariff taken off—with Democratic free trade—the European mills would hold that trade and gain more as this country grew. American steel and iron workers would then come into direct competition with foreign labor; wages would go down. The trust would not be crushed. The workers would be crushed. There is nothing plainer than that the Democratic idea is wrong from first to last. There is no excuse for electing any Democratic Congressman this fall. In the elections so far held no Democratic has been elected.—Worcester Tele-

REV. D. J. K. MADDOX

Enters a Plea in the Daviess
Circuit Court.

In the action of D. J. K. Maddox against Nancy Maddox, the plaintiff filed a response to the rule taken against him some time ago to show cause why he should not pay Miller & Todd, the defendant's attorneys, a fee of \$100. The response sets out that the plaintiff is not bound either by law, equity or good conscience to pay the fee, that he was not at fault in bringing the suit, and that his cause of action was just and true, as was decided by the court, that he had a marriage contract and at the time of his marriage his wife had \$2,000 in cash, besides \$500 that she received during the pendency of the suit. This does not include household goods and personal property. Maddox says that he is sixty-six years of age and largely by reason of the marriage of his wife his health is wrecked and he is not able to earn any money.

The men of the party busied themselves in burrying the company's baggage away from the boat and Lillian Massey passed the time wringing her hands and crying. It was evident that there was more than ordinary story in the case.

The fact, however, was learned that the King Ping Pong company exhibited at Madison, and started on the Hanover at night to come to Louisville, so the company could catch a train for Danville, Ky., where it is to be required to pay the \$100.—Inquirer.

How Children are Sold.

The Hungarian authorities are taking decisive steps to put a stop to an extraordinary system of selling children which prevails to a large extent in the central provinces.

Once a month childless parents appear in a large foundling hospital in Temesvar, where they seek out the children that suit them and depart after paying a sum of money for their purchases.

On a recent occasion thirty children, ranging from one to nine years, were disposed of in this way without sufficient guarantee being given that the purchasers were respectable people who would treat the children properly. The most beautiful children were those most sought after, especially fair-haired girls, as these in Hungary are rare.

In three cases circus people bought six children to bring up as acrobats.

In one case a millionaire bought a boy to bring up as his heir, as he has disdained his own son. The authorities now insist on the most careful investigations into the status and motives of the purchasers.

While this was going on, James T. Keller and his wife, Ida Carter, seated themselves on camp stools on the boat's forecastle, and seemed to be in deep trouble, but their conversation was in monotones and could not be heard. Suddenly Pilot Ferris heard a splash, and at once saw that a woman was overboard. He rang the stop bell. Just as he did this, another splash was heard. This proved to be Mr. Kelly, who had gone overboard after his wife.

The boat ran a short distance on her own momentum. Meanwhile a life-boat had been lowered by the crew, and Kelly was caught just as he was drowning, but the woman had disappeared. When Kelly was pulled aboard it was found he had put on a life-preserver before making his plunge, and had adjusted it wrong, that it had held his head under instead of above the water.

Every effort was made to ascertain the names of all members of the show company, but the manager declined to make any kind of statement, except that there were twenty-five people in the party.

The company proceeded on its way without taking any steps to recover woman's body.—Louisville Post.

Stricken With Paralysis.

Henderson Grinnell of this place, was stricken with partial paralysis and completely lost the use of one arm and side after being treated by eminent physicians for quite a while without relief, my wife recommended Chamberlain's Pain Balm, and after using two bottles of it he is almost entirely cured.—Geo. R. McDonald, Main, Dogan County, W. Va. Several other very remarkable cures of partial paralysis have been effected by the use of this balm. It is most widely known, however, as a cure for rheumatism, sprains and bruises. For sale by all druggists.

A Wrong Idea.

While the Democrats are talking that the combines whose products are protected by the United States tariff system should be cut out of such protection because they have outgrown the necessity for protection, it develops that such are not the facts. A conspicuous instance is that the rolling mills of Europe are called upon this fall to work at their full capacity to help the mills of this country to supply the demand for steel products. Other iron goods are also needed beyond the capacity of the American plants. With the tariff kept at the

JIM CUMMINGS

RETIRING OUTLAW

The Only Member of the James Gang

WHO WAS NEVER PUNISHED.

Tells the Story of His Four Surrenders.

Higginsville, Mo., Oct. 11.

Jim Cummings, the only member of the James gang of outlaws, who has not been killed, captured, tried or pardoned, although he has surrendered four times, is engaged in the comparatively peaceful occupation of breaking horses in Missouri.

Jim is practically the last of the famous outlawed Quantrell troopers, and he is the only one of the band who was neither killed nor captured, and who never surrendered except when he was not wanted.

The fate of the others is familiar. Jesse James was shot by Bob Ford, a new recruit; John Younger was killed; Bill Caldwell, Charley Pitts and Clell Miller were killed at Northfield, Minn.; Cole, Jim and Bob Younger were captured soon afterward and sent to prison, where Bob died and the other two remained for a quarter of a century.

Bill Ryan was captured and imprisoned, and Frank James surrendered, was tried and acquitted and is now living in St. Louis.

Jim Cummings is undoubtedly the most successful surrender known. He always managed to come in when he was not wanted. He was only once detained and that was for a night.

The ex-outlaw grew confident the other day and told many things about himself never before made public.

Jim's first "come-in" was in 1865, after Quantrell had been killed in Kentucky.

"We had a fight with some Federal troops at the Missouri River near Lexington," he said, "and Jesse was wounded—shot in the left breast near the heart. We thought he would die, but we brought him down yonder and hid him in the brush for a day or two.

"I helped put him in the wagon and we drove to Lexington, nine miles, and surrendered. But before we went in we were assured that the Federal authorities would grant us our liberty, the same as regular Confederates. If we hadn't had that assurance we never would have gone in.

"My next come-in was before Jesse James was tried at Galatin in connection with the Rock Island train robbery at Winston. I just thought I'd better surrender. I was then living at Buffalo, Wyoming, a new town that has grown wonderfully since.

"I was running a shoe shop and making good money—\$25 a week clear. I picked up cobbling so that I could mend shoes, and then I hired other workmen to help me. I liked that business, but I concluded it was about time to surrender.

"So I went to the house of a man whom I had known since boyhood. He was from Clay county, Missouri. I went in at his back door and told him who I was. 'Get out!' he said; 'you're drunk!' He wouldn't believe I was Jim Cummings. I finally convinced him, and he advised me to give myself up. I did so, and the Governor of Wyoming was notified.

"He notified the Governor of Missouri, Tom Crittenden, so that they could bring me back to Missouri. The people who knew me there in business said I was a crank. That's no more Jim Cummings than I am," they would say. "He's either a crank or he imagines he is Jim Cummings, or he is a sharper who is trying to work the State for a free pass to Missouri. If they take him to Missouri he'll turn out to be somebody else."

"It was really a hard matter for me to get them to believe I was Cummings. Even the officers at first didn't want to take charge of me. I was ready to come back with them, and had sold my business for \$600, getting a \$12 pair of boots and a \$10 pair of shoes to boot.

"After one night in custody, the authorities received a telegram from Gov. Crittenden saying that he didn't want me. They seemed to have nothing against me. The officers turned me loose and I was mighty sorry I had sold out my shop. I went back and tried to buy it, but couldn't. Since then I have owned, that went with the business for \$600, has been worth \$12,000. I missed out on that.

"Really, I believe I felt worse because I'd sold out so low than I had been brought to Missouri for trial."

Cummings' third surrender was to the police in California about a dozen years ago. It was shortly after a daring express robbery in Missouri.

A man representing himself to be a

messenger in the employ of the company presented himself at the door of the coach, in the old Union depot shed, and handed Messenger Fotheringham an order purporting to be from the proper official of the company, authorizing the stranger to ride in the car to Kansas City. Fotheringham, who was arrested on suspicion of being an accomplice, having been found tied hand and foot in the car after the robbery, was incarcerated several weeks, and after his liberation sued the express company and recovered damages.

The man who robbed the safe of the bank and gagged Fotheringham jumped from the train with a big valise, full of greenbacks and made for the north.

"The escape of the robber was a nine weeks' wonder. He seemed to have disappeared from the earth, when the plight into which he had thrown poor Fotheringham touched a tender spot in his make-up. Letters began coming to the Chief of Police from different quarters, signed "Jim Cummings," seeking to establish the innocence of the express messenger.

"Jim Cummings," in the letters, confessed the robbery and took all the blame. Just about that time the State was too small and uncomfortable for Jim Cummings, of Clay county, and he had not been heard from for years.

Jim is practically the last of the famous outlawed Quantrell troopers, and he is the only one of the band who was neither killed nor captured, and who never surrendered except when he was not wanted.

The fate of the others is familiar. Jesse James was shot by Bob Ford, a new recruit; John Younger was killed; Bill Caldwell, Charley Pitts and Clell Miller were killed at Northfield, Minn.; Cole, Jim and Bob Younger were captured soon afterward and sent to prison, where Bob died and the other two remained for a quarter of a century.

of Morgantown.

ANNOUNCEMENTS.

For Circuit Judge.
We are authorized to announce W. T. OWEN,
of Daviess county, as a candidate for Circuit
Judge in the Sixth Judicial District, subject to the
action of the Democratic party.

GEN. THOMAS J. STEWART, of
Pennsylvania, was elected Comman-
der-in-chief of the G. A. R., and San
Francisco, Cal., was chosen as the
next place of meeting.

In a published interview ex-Presi-
dent Grover Cleveland says the Dem-
ocrats should at once make tariff re-
form the predominant issue. If we
remember rightly Mr. Cleveland was
very intimately associated with the
Democratic party at a time when it
made tariff reform the predominant
issue and with results the country
will not soon forget.

ROBERT J. BRECKINRIDGE is out in
a statement claiming the Democratic
nomination for Governor on the
ground that he was not allowed to
hold the office of Attorney-General
to which he was not elected. This is
a strong point and well taken, and
should bring to his support all Dem-
ocrats who believe in holding office
regardless of the expressed will of the
people.

ONE T. Roosevelt is considered an
influential character in this country,
but one John Mitchell is, at least just
now, the most important personage in
country. Mr. Mitchell, is President of
the Coal Miners Union, and the
whole fuel consuming population of
the East is begging him to let the
miners return to work. Mr. Mitchell
will agree to this only upon terms
satisfactory to the miners which are
about to be offered.

A VOTE for Judge Settle is a vote
for the perpetuation of Democracy in
Kentucky.—Herald. This is man-
ifestly true, for there is not a more
honest nor vicious partisan in the
State than Judge Settle, and the
Herald no doubt based its conclusion
on his intensely partisan decisions as
Circuit Judge. A judge who would
prostitute the highest court of Ken-
tucky for purely political ends is unworthy
of even the respect of any political
organization.

JUDGE Settle, in his speech here
Saturday, severely denounced Judge
Guffy for affiliating with other than
the Republican party and immediately
faced about and invited the Populist,
gold Democrats and anti-Goebel
Democrats to vote for him. In
denouncing Judge Guffy's support of
the Populist party as something akin
to a crime, was he not equally
denouncing the Populist, gold Demo-
crats and anti-Goebel Democrats for
whose support he was appealing?

The great anthracite coal strike is
ended. A common ground of agree-
ment was reached by representatives
of the miners and operators at a con-
ference at the White House. Since
it has been known that President
Roosevelt had determined to inter-
vene, no one doubted that a settle-
ment would be reached. The Presi-
dent deserves, and will receive the
homage of millions of people who
have been benefited by the adjust-
ment of the strike. All honor and
credit to the Rough Rider!

P. M. WESTFIELD, Hartford, Ky.

Poster Gross was arrested at the home of Dr. Westfield, near Fordsville, Wednesday, by Clarence Keown and Jo Roberts. He was taken to Hawesville by Jo Roberts where he is wanted for burglary.

Rev. E. M. Crowe, an aged and well-beloved minister of the Methodist church, South, a superannuated minister of that church, who has just seen his seventy-third birthday, has come to Hartford to spend the evening twilight of his life.

The editor of this paper had Dr. Goldstein adjust, for him, a pair of spectacles yesterday with which he is well pleased. We take pleasure in recommending Dr. Goldstein to those needing spectacles or eye-glasses. He is certainly entirely familiar with his line of work. Dr. Goldstein will leave Hartford to-morrow night. See him to-day or to-morrow.

A protracted meeting will begin at the Baptist church in Beaver Dam next Sunday. Rev. E. W. Coakley, the pastor, will be assisted by Rev. J. H. Rife, of Monroe City, Mo. Rev. Rife is an eminent pastor evangelist and will no doubt exercise much power in the meeting. The protracted effort will continue at Beaver Dam two weeks or more and will then be transferred to Hartford.

STRANGE COMA.

Resulting From Joy, Makes Man's Body Rigid as Steel.

Rigid, unable to speak, to hear or apparently to feel, Michael Krajecak, 16 years old, lies on a cot in Lebanon Hospital, his strange case is a puzzle to the physicians. Since Thursday morning, when the odd malady attacked him on an L train, he was laid thus in that condition.

Young Krajecak came here early in the week from the coal regions in Pennsylvania looking for work. He is a Pole of good education. Morris Polak, a baker, of No. 3183 Third avenue, became interested in the lad, took him to a grocery in One Hundred and Twenty-second street, Thursday morning, and secured him a clerkship. He was told to report Monday.

So long had Krajecak been without money and friends the promise of work overjoyed him and he became demonstratively effusive to Polak.

The two boarded an L train at One Hundred and Twenty ninth street and were conversing, when suddenly the lad stopped in the middle of a sentence. His lips moved but not a sound came.

Pollak questioned him. He tried to reply, but not a sound issued from his lips.

Then his body began to grow rigid. His eyes gazedly ahead. He was taken from the train at One Hundred and Fifty-ninth street and carried to the Polak home. There he grew worse, and though questions were shouted in his ear and food and water proffered him, he made no sign nor sound.

At the Lebanon Hospital boiling hot water was poured from a spoon on the lad's head, but he did not wince. Dr. Reiss diagnosed the case as hysteria.

"It is one of those inexplicable cases resultant from no one knows what," said he yesterday. "I believe it to be hysteria in a passive form. From what I could learn he has never been similarly afflicted."

The only food that can be given to the patient is warm milk, administered in small doses.

No Place Like Home.

We know a farmer who got the notion in his head that he wanted to sell his farm. Some time ago he concluded he wanted to sell, so he told his agent to sell if possible. A hundred dollars isn't to be picked up every day, so the agent let himself out a little, used some printer's ink perhaps, consequently the other day he brought a man to the farm, sold it to him for the price asked, and a forfeit payment was made. In two hours after the purchaser left, the seller began to

HOUSEWORK

Too much housework wrecks women's nerves. And the constant care of children, day and night, is often too trying for even a strong woman. A laggard face tells the story of the overworked housewife and mother. Deraugued nerves, leucorrhœa and falling of the womb result from overwork. Every housewife needs a remedy to regulate her nerves and to keep her sensitive female organs in perfect condition.

WINE OF CARDUI.

is doing this for thousands of American women to-day. It cured Mrs. Jones and that is why she writes this frank letter:

Glendale, Ky., Feb. 10, 1901.
I am so glad that your Wine of Cardui is helping me. I have had it for three years now. I am doing my own work without any help, and I work harder than ever, but I am not tired. That shows that the Wine is doing me good. I am getting fitter than I have ever been. I have lost weight and eat heartily. Before I began taking Wine of Cardui I used to lay down for six hours every day, and now I do not think of lying down through the day.

have a queer feeling in his head. The thought struck him that he was now living on another man's farm, or would be in a few days. In four hours he began to wonder what he would do or where he would go. He doesn't say whether he slept any that night or not, but he was as bright and early next morning that he was on the road to town by sunrise, where he paid the agent his \$100 and the man who thought he had bought the farm another \$100 to release him from the bargain. It cost this man \$200 to find out there is no place like the old homestead.—Winchester Democrat.

Keep a record of what you are doing on the farm, the time of planting, harvesting, methods employed in cultivating, yields grain and hay, sales of cattle and other products. When intelligently kept, such records are invaluable, and it is but little work to jot them down each week in a book kept for this purpose. A comparison year by year leads to better and more profitable farming, the discarding of unprofitable stock and unproductive varieties and the substitution of better ones. A record of events, pays, and who voted as he once did.—Breckenridge News.

the people will always find the same courteous, fair and impartial judge, he has proven himself to be.—Breckenridge News.

The only attack the opponents of Judge Guffy have ever made on him is concerning his political record only. And this is because, at one time he affiliated with the Populist party and was their candidate for Attorney General. Well, this same charge can be brought against about 1,200 of the best citizens of this county, and many of this number still vote for the candidate of the Populist party. Whenever Judge Guffy is denounced because of this fact there is also denounced these same 1,200 good citizens of our county, who voted as he once did.—Breckenridge News.

"It is one of those inexplicable cases resultant from no one knows what," said he yesterday. "I believe it to be hysteria in a passive form. From what I could learn he has never been similarly afflicted."

The only food that can be given to the patient is warm milk, administered in small doses.

Chamberlain's Cough Remedy Saved His Boy's Life.

"I believe I saved my (one year old) boy's life this winter with Chamberlain's Cough Remedy," says A. M. Hoppe, Rio Creek, Ws. "He was so choked up with croup that he could not speak. I gave it to him freely until he vomited and in a short time he was all right." For sale by all druggists.

No Place Like Home.

We know a farmer who got the notion in his head that he wanted to sell his farm. Some time ago he concluded he wanted to sell, so he told his agent to sell if possible. A hundred dollars isn't to be picked up every day, so the agent let himself out a little, used some printer's ink perhaps, consequently the other day he brought a man to the farm, sold it to him for the price asked, and a forfeit payment was made. In two hours after the purchaser left, the seller began to

HOUSEWORK

Too much housework wrecks women's nerves. And the constant care of children, day and night, is often too trying for even a strong woman. A laggard face tells the story of the overworked housewife and mother. Deraugued nerves, leucorrhœa and falling of the womb result from overwork. Every housewife needs a remedy to regulate her nerves and to keep her sensitive female organs in perfect condition.

WINE OF CARDUI.

is doing this for thousands of American women to-day. It cured Mrs. Jones and that is why she writes this frank letter:

Glendale, Ky., Feb. 10, 1901.
I am so glad that your Wine of Cardui is helping me. I have had it for three years now. I am doing my own work without any help, and I work harder than ever, but I am not tired. That shows that the Wine is doing me good. I am getting fitter than I have ever been. I have lost weight and eat heartily. Before I began taking Wine of Cardui I used to lay down for six hours every day, and now I do not think of lying down through the day.

have a queer feeling in his head. The thought struck him that he was now living on another man's farm, or would be in a few days. In four hours he began to wonder what he would do or where he would go. He doesn't say whether he slept any that night or not, but he was as bright and early next morning that he was on the road to town by sunrise, where he paid the agent his \$100 and the man who thought he had bought the farm another \$100 to release him from the bargain. It cost this man \$200 to find out there is no place like the old homestead.—Winchester Democrat.

The only attack the opponents of Judge Guffy have ever made on him is concerning his political record only. And this is because, at one time he affiliated with the Populist party and was their candidate for Attorney General. Well, this same charge can be brought against about 1,200 of the best citizens of this county, and many of this number still vote for the candidate of the Populist party. Whenever Judge Guffy is denounced because of this fact there is also denounced these same 1,200 good citizens of our county, who voted as he once did.—Breckenridge News.

Rigged, unable to speak, to hear or apparently to feel, Michael Krajecak, 16 years old, lies on a cot in Lebanon Hospital, his strange case is a puzzle to the physicians. Since Thursday morning, when the odd malady attacked him on an L train, he was laid thus in that condition.

Young Krajecak came here early in the week from the coal regions in Pennsylvania looking for work. He is a Pole of good education. Morris Polak, a baker, of No. 3183 Third avenue, became interested in the lad, took him to a grocery in One Hundred and Twenty-second street, Thursday morning, and secured him a clerkship. He was told to report Monday.

So long had Krajecak been without money and friends the promise of work overjoyed him and he became demonstratively effusive to Polak.

The two boarded an L train at One Hundred and Twenty ninth street and were conversing, when suddenly the lad stopped in the middle of a sentence. His lips moved but not a sound came.

Pollak questioned him. He tried to reply, but not a sound issued from his lips.

Then his body began to grow rigid. His eyes gazedly ahead. He was taken from the train at One Hundred and Fifty-ninth street and carried to the Polak home. There he grew worse, and though questions were shouted in his ear and food and water proffered him, he made no sign nor sound.

At the Lebanon Hospital boiling hot water was poured from a spoon on the lad's head, but he did not wince. Dr. Reiss diagnosed the case as hysteria.

"It is one of those inexplicable cases resultant from no one knows what," said he yesterday. "I believe it to be hysteria in a passive form. From what I could learn he has never been similarly afflicted."
